What could the instructor do to improve this course

N/A

Nothing is coming to mind
Nothing comes to mind. It was amazing!
Try to connect and include with all students, not just one or two.
Maybe have more presentations, but besides that I think the class was very great.
Overall, nothing. His course was exceptional to me.
The only way this course could be improved is if there was a visual of the information during the lecture for each unit. It is easier to take notes and learn this way.
Nothing, course was amazing!!
I felt the instructor did very well teaching this course.
Make it a little more difficult.
- slides for every chapter
Maybe assign a few more homework assignments to help students retain information better.

What did you like about the course and/or instructor

The instructor was very personable and easy to talk to about the class and its content normally. The material and manner of conducting the class felt very much like what an intro class should. The content was presented in an interesting/entertaining way, making it easier to learn and understand.
He's very knowledgeable and has a great teaching style. He understands that students are busy and makes sure all his class work is relevant.
I think that the instructor was able to make the information given in class fun.
He gave examples in class for things that made it easy to understand the material.
The instructor made sure we had the material to understand the assignments, he went into deep conversations about the topics we covered and was always able to answer our questions without hesitation.
I liked that the instructor knew what he was talking about and was able to relay that to us. I also liked the class discussions and bringing in speakers to talk to us.
You could tell that Josh was a really good person from the way he taught his class. He took our feelings/stressors into account when assigning classwork and kept us in the loop when making class decisions. By far my favorite instructor this semester because of his ability to communicate with us. You could tell he cared a lot about his students.

Instructor was understanding and made changes to course schedule whenever needed! Instructor taught well and always answered questions!

Josh was amazing! A great teacher I loved going to cj class every day! He made learning fun.

The instructor was enthusiastic about the course and cared about students. He instructed well for an introduction class but encourage those that were studying the material beyond an intro level class.

I liked that the instructor knew what we were going through as students so he made life a little bit easier. I liked the course because it was a good intro to my future career.

- always understanding
- covered topics well and fully
- reviewed material before exams

Josh is a very down-to-earth person and he realized when we were not paying attention and change his way of teaching to try to keep us engaged.

Please comment on effectiveness computer aided instruction

Computer-aided instruction worked well when required for this course.

I was not a big fan of the online textbook but other than that it was good

It was very effective!

Power-point was effective

It was easy to understand Blackboard.

Overall great

The instructor responded fast and was helpful. Powerpoints were helpful in studying.

Assignments/blackboard was run effectively!

Super effective!

It was effective.

Very effective

We used mostly computer assignments, which went pretty well for me, because I prefer these online assignments.

His powerpoints were very helpful and contained the information that we needed to know.

Any additional comments

This was my favorite class to attend this semester

He's an excellent educator, and definitely a rising star in the Criminal Justice Program. I can't wait to see him grow as a professor!

Absolutely love this course and would definitely recommend it to someone who wants to be in that major.

Thanks Josh, for making me love this system and fueling my fire for my degree!

Super chill instructor, not my major at all but I still enjoyed it
