| **Response Rate** | 5/61 (8.2%) |

• The course provided an in-depth examination of serial killers and the crime of serial murder, it did a great job of debunking myths, and demonstrating modern investigation and forensic work. the only weakness is you have to drudge through the darkest material you can imagine to do just that.

• Strength: provide interesting and informative content, overall fun class. Weakness: I wish we talked about more cases and talked about women in the field.

• The course is relatively easy if you read the textbook and understand the material.

• very entertaining and fun

• Mr. Davis's expertise and passion for the subject have truly made this course a standout. His ability to break down investigation techniques and understandings were incredible helpful in grasping the material. He brought a vast depth of knowledge to each lecture, use of real-world case studies has provided us with valuable insights into the mind of a serial killer, and the methods used to track and apprehend them. His commitment to debunking myths and stereotypes about serial murder has fostered a learning environment that encourages critical thinking and objective analysis. Moreover, his openness to discussion and a willingness to answer any questions have greatly enriched my understanding of the subject matter. This course has not only broadened my knowledge of criminal justice but also sparked a deeper interest in the field.

• Great instructor, I know with more practice future student will enjoy the class more than I did.

• Joshua was very helpful in the classroom and outside of it. He always made sure that students understood what he was talking about as he was lecturing.

• he was AWESOME. He knew what he was talking about and was super funny and entertaining. He did a great job at teaching this class

• some things on the test weren't mentioned in class or when reviewing the course material for the test, the instructor confused himself which made things confusing there was a guest speaker for cults and didn't mention things that would be on the test sometimes the instructor would say that "this won't be on the exam" and then during the review talk about it and it was on the exam
